2020 National Assisted Living Week® is September 13th to 19th | "Caring is Essential"

The current social distancing rules and the inability of friends and family to enter The Milton Home and other senior living communities has changed much of the day-to-day life of residents and staff. Despite these hurdles, our staff continues to play a critical role in the lives of our residents and are proud to serve them.

That is why this week, we celebrate National Assisted Living Week® and its theme "Caring is Essential." The theme highlights the incredible care provided by essential caregivers. This week is a way to celebrate the dedication of staff, the individuality of residents, and the deep connections formed between our residents and staff.

The staff of The Milton Home are honored to help our residents stay connected to their friends and family, while adhering to COVID-19 safety requirements and precautions. We fight hard to keep our residents not only safe but engaged, active, and happy. While their own families are unable to physically be beside them and visit with them as they usually would, we continue with our tradition of happily taking residents on as our own family members.

Kevin Baker, Executive Director
The Milton Home
