

We think too much and feel too little. More than machinery, we need humanity. More than cleverness, we need kindness and gentleness.

- Charlie Chaplin

Dear Family Members:

Many of you have graciously expressed your appreciation for the care, friendship, and engagement your loved ones experience as a resident of The Milton Home. We enjoy their unique personalities, engaging conversations, talents and genuine expressions of how they love living here.

There may be others in your network from extended family members, neighborhood, church, synagogue, or clubs concerned about themselves, friend or family member.

Please encourage them to contact us. We are happy to meet with them, learn more about their concerns and provide advice and counsel to help them understand their options.

As a life plan community, we are able to provide all levels of care and housing. We understand we may not meet everyone's unique needs. Regardless, we will always serve as a community resource to all.

Thank you,

This communication is for residents, families, friends & loved ones. We encourage you to visit often. Personal interactions help maintain important connections, memories and cognitive skills.

Our Excellent Housekeeping Staff

In a recent conversation with our Executive Director, Kevin Baker, he shared a story about the importance and impact of our housekeeping staff. Of course, we may all believe we know what housekeeping does, but there is more to this remarkable staff. Our housekeeping staff really gets to know residents and can read their moods and reactions during a conversation.

Over the course of the last 3 months a housekeeper has noticed that a resident just was not themselves and reported their observations to nursing. The outcome, in two cases, a stroke was prevented due to the relationship and observational skills of a housekeeper.

***Eyes on all the time is their motto!
Thank you to every member of the team.***

We hope to see you soon while visiting a loved one. Best Regards,

The 24/7 Milton Home Staff
